Faucet LED Light  
Display Water Mode

## All in One multi-stage filter cartridge

### Sediment filter

Pre-filtration media at the entrance to the cartridge retains coarse particles, such as sand or grit

### Hardness adjustment

Ion-selective filter medium reduces hardness while retaining other minerals beneficial for health

### Bacteria inhibition

Anti-bacterial formulation protects for microbiological growth within filter element

**Organics reduction** (reduces harmful pesticides, VOC, etc...)

**Heavy metal reduction** (takes out toxic lead, copper, cadmium, mercury, etc...)

**Calcium stabilization** (protects for lime scale formation in cold and heated water)

**Taste and odour removal** (such as chlorine, humic, etc...)

**0.5 micron fine filter block** (takes out micro particles)

**Achieved mild alkaline water** (pH 8.5- pH 8.9)
